

# CONTENTS

## TO THE 30th ANNIVERSARY OF THE SPECIAL ASTROPHYSICAL OBSERVATORY

- N. G. Bochkarev, A. I. Shapovalova* Spectral monitoring of active galactic nuclei ..... 5  
*A. V. Zasov* Flat rotation curves of galaxies are left in the past ..... 14

## SCIENTIFIC RESEARCHES

- V. V. Vlasyuk, V. H. Chavushyan* Photometric investigation of the field around  
gravitational lens SBS 1520+530 with the 6 m telescope ..... 18
- A. Yu. Kniazev, S. A. Pustilnik, A. V. Ugryumov* New nearby very metal-deficient  
blue compact galaxies ..... 23
- M. G. Mingaliev, A. M. Botashev, V. A. Stolyarov* Simultaneous spectra of complete  
sample of sources from the PMN survey ..... 28
- S. A. Trushkin* Radio spectra of complete sample of Galactic supernova remnants ..... 62
- N. V. Bystrova* Some details in the HI distribution towards the Local Bubble ..... 97
- Yu. G. Shevelev, V. A. Marsakov* On properties of metallicity function of F-stars  
in the galactic disk ..... 101
- S. V. Ermakov, V. G. Klochkova* Spectroscopy of halo stars ..... 110
- Yu. V. Glagolevskij* Age variation of helium abundance in He-rich stars ..... 118
- Yu. V. Glagolevskij, E. Gerth* Magnetic models of  $\epsilon$  UMa and HD 147010 ..... 123
- T. A. Kartasheva, M. A. Svechnikov, I. I. Romanyuk, I. D. Najdenov* Polarimetric  
study of the Wolf-Rayet eclipsing binary CQ Cephei ..... 130
- V. S. Tamazian, J. A. Docobo* MK classification of four visual binary stars  
with variable components ..... 140

## CHRONICLE

- Conference of 6 m telescope users (April 21, 1998, MAO RAS, St.Petersburg) ..... 147  
Conference of 6 m telescope users (November 3, 1998, SAO RAS, Nizhnij Arkhyz) ..... 150
